

S1MRE

Reduction elbow, light

Additional information: The reduction elbow provides a 90-degree bend in the suspension system between the horizontal tube and base connection of the Syspend 281-Max system and the vertical components of the Syspend 180-Max system. Die-cast aluminum construction. Available in RAL 9005 black finish only. Includes installation instructions, gaskets, and tube setscrews. Use of the reduction elbow with the Syspend 281-Max base and tube increases the system load rating to 281 lb. (127 kg) at 3.3 ft. (1 m).

Note: The maximum weight which a light swing arm can support depends on the length of the arm and the system structure. See diagram in the mounting instructions.
