

S2MT

Operator arm profile

Additional information: Angled aluminum tubes provide structural integrity and act as conduit for equipment wiring. Tubes attach to system components with 6 setscrews on each end of the tube. (Setscrews are provided with the mating system components, not the tubes.) Setscrews allow for easy adjustment and leveling of the system. Setscrews are provided with LOCTITE™ to seal threaded holes and provide secure connections. Available in 8 standard lengths ranging from 250 mm to 2000 mm. Tubes 750 mm and longer include drilling template to assist with drilling and tapping the holes when the tube is cut to length.

Note: The maximum weight a medium swing arm can support depends on the length of the arm and the system structure. See diagram in the mounting instructions.

Length	Height	Width	Item no.
250	90	70	S2MT250
500	90	70	S2MT500
750	90	70	S2MT750
1000	90	70	S2MT1000
1250	90	70	S2MT1250
1500	90	70	S2MT1500
1750	90	70	S2MT1750
2000	90	70	S2MT2000
